Retail merchants frequently get the idea into their heads that because they sell goods that the public must have, and sell on a very low margin, advertising would not help them any. There never was a more erroneous notion. Surely advertising will increase any legitimate business, and the grocer, dry goods merchant, or any one who has anything to sell and does not use his local paper, or in any other way does not keep himself before the public, is neglecting one of the most powerful aids he can find in his effort to secure success.
